Re: Sent via facsimile 703.437.6182

Dear Mr. Cornwell:

This is to confirm permission for you to conduct equipment tests at the Arkansas International Airport on or about March 18, 2004. Please advise if the date is other than originally requested.

You will have access to the Parallel taxiway from Alpha taxiway to the north to Delta taxiway to the south (approximately 8,000 feet).

We understand that you will arrive the afternoon prior to the scheduled tests and identify to the Airfield Manager, Jerry Vest, the areas that are required and marked for the purpose of testing your equipment.

The areas will be reserved at your request from 0900L through 1400L exclusively for test purposes. A fee of \$1,000.00 (one thousand dollars) will be assessed and payable upon completion of your scheduled tests.

You will also be authorized to utilize our conference room at the Airport Authority headquarters providing all business is concluded prior to 1700L.

If you have any questions, please contact Mr. Jerry Vest, Airport Manager, at 870.532.5628.

Sincerely,

Ice Gurley
Executive Director
