To Whom It May Concern:

This is to certify that:

ARRIS deploys and/or manages radio frequency equipment.

- o The RF experimentation will be conducted by following a strict Test Plan defined and approved by ARRIS in a controlled environment.

ARRIS will have a Project Manager in place to specifically follow the Test Plan, track results, and publish test results.

ARRIS has extensive RF experience and expertise deploying RF networks and has a number of RF engineers on permanent staff.

For the above reasons, I believe ARRIS meets the Eligibility criteria for a Special Temporary Authority experimental license as set forth in the Commission Rules.

Sincerely,

A handwritten signature in black ink, appearing to read 'Adam DeBelle', with a long, sweeping horizontal line extending to the right.
