Michael L. Johnson
P.O. Box 1270
Canby, Oregon 97013

Dear Mr. Johnson:

The NAV/COM/Spectrum Engineering Section, ANM-473, has reviewed your request for a test frequency within the Very High Frequency (VHF) ground to air communications band. It is the current FAA policy to not allow use of the VHF ground to air communications band for non Air Traffic control functions.

We recently coordinated your use of 121.600 MHz at Canby, Oregon, and this policy does not affect that coordination. You may continue to use 121.600 MHz at that location.

Should you have any questions or concerns about this determination, please contact Fred Neudecker at (425) 227-2637.

A handwritten signature in black ink, reading "Dale W. Kunkel". The signature is written in a cursive, flowing style.

Dale W. Kunkel
Manager, Operations Branch
