

Re: Astro Digital US, Inc. FCC Part 5 Application File No. 0024-EX-CM-2016

Mr. Bidy & Mr. King:

Please send a reply E-Mail to sonnenfeldt.walter@orbcomm.com to confirm that you have received this message.

Thank you for your coordination request letter of 5 July 2017, regarding the above-referenced Astro Digital US, Inc. application for modification of FCC Part 5 license Call Sign WH2XXT ("Application").

Based on the information provided in your letter and the Application, ORBCOMM has no objection to grant of the Application for use of spectrum in accordance with FCC Rule Part 5 for experimentation on a temporary non-protected non-interference basis. However, ORBCOMM's consent to temporary non-interference FCC Part 5 experimental use of spectrum must in no way be construed as ORBCOMM's consent to the use of spectrum under any other authorization regime (including international coordination of spectrum for use by Astro Digital, or authorization for use of spectrum by Astro Digital in any country other than the United States).

ORBCOMM has no other comments or objections to the Application at this time.

Best Regards,

Walter Sonnenfeldt
Vice President, Regulatory Affairs
ORBCOMM Inc.
