AMENDMENT

AT&T Corp., hereby amends its experimental application File No. 5841-EX-PL-97 by submission of an FCC Form 442, Page 2, to be substituted for the page currently on file. The new page 2 amends the proposed frequency band to include 5725-5825 MHz, rather than 5725-5850 MHz and also amends the requested power to be 4W rather than 8W.

Executed this 15th day of January 1998.

AT&T Corp.
