Subject: Application for a New Experimental Transportable
Earth Station

Dear Mr. Wright,

American Telephone and Telegraph Company (AT&T) hereby respectfully requests authority to construct and operate an experimental earth station within the continental United States.

The proposed station earth station will access the INMARSAT Satellite System and will be used to provide emergency communications.

COMSAT is simultaneously filing with the FCC for space segment authorization.

Please address any questions or concerns to:

AT&T
Attn: Mr. Stanley Edinger
