

Description of Transaction

FCC approval is being sought for the transfer of control of Aurora Flight Sciences Corporation (“Aurora”), to The Boeing Company (“Boeing”). Boeing will maintain Aurora as a wholly owned subsidiary. Aurora is based in Manassas, Virginia and is a developer and manufacturer of advanced aerospace platforms, such as autonomous systems technologies to enable advanced robotic aircraft for future aerospace applications and vehicles. Aurora uses the subject experimental license to test aerospace systems.

Other FCC licenses held by Aurora consist of the following authorizations, the transfer of which have already been approved by the Wireless Telecommunications Bureau:

FCC Call Sign	Radio Service	Transfer Application File Number	Consented to Date
21AU	AC- Aircraft License	0007953875	10/16/2017
WQZF371	AF – Aeronautical and Fixed	0007953866	10/10/2017
WNXC310	IG - Industrial/Business Pool, Conventional	0007953760	10/10/2017
