RE: FCC File number 0155-EX-PL-2013

To whom it may concern:

Please find enclosed an application for Site B Concourse, Memphis International Airport requesting 136.750 MHz for our client Aeronautical Radio Inc. (ARINC). The purpose of the experimental license is to support OAT testing of ARINC'S newly developed VDL mode 2 multiple frequency management.

Since ASRI- Aviation Spectrum Resources Inc. is the band manager for the aeronautical enroute band which covers 136.500 to 136.975 MHz , please accept this letter as ASRI's concurrence.

Sincerely,

Jonathan D. Lunenfeld
Spectrum Administrator
ASRI, Inc.
