RE: FCC File number 0398-EX-PL-2013

To whom it may concern:

Please find enclosed an application for our client Aeronautical Radio Inc. (ARINC). ARINC requires the experimental license at Memphis, TN to support OAT testing of ARINC'S newly developed VDL mode 2 multi-frequency and capacity management concepts for VDL expansion on NextGen.

Since ASRI- Aviation Spectrum Resources Inc. is the band manager for the 136.500-136.975 frequencies, please accept this letter as ASRI's concurrence.

Sincerely,

Jonathan D. Lunenfeld
Spectrum Administrator
ASRI, Inc.
