

FCC File: 0123-EX-PL-2002

Subject: Experimental license with nationwide authority justification

Overview:

Use of the radio during development and in support of FAA sponsored NEXCOM evaluation activities, includes operation in the following sites.

Avidyne internal development centers: Lincoln, Ma; Palm Bay, Fl.

FAA Demonstration Evaluation: Atlantic City, NJ

FAA Operational Evaluation: Unknown (expected Kansas City, Mo; Jacksonville, Fl)

Operational activities include airborne mobile operations around and between these sites. Nationwide operational approval is sought to preclude restrictions on FAA flight test usage.
