

Exhibit 1

In connection with this renewal application for Station WF2XUB, it is respectfully requested that upon grant of the renewal the Commission update the Stop Buzzer information at Special Condition 11 to include the BAE Systems Emergency Services Center as an alternate Stop Buzzer. Specifically, it is requested that Special Condition 11 be updated to specify the following:

Primary: George Moynihan – (603) 689-8630

Secondary: BAE Systems Emergency Services Center – (603) 885-3842

In addition, this is to advise the Commission that there are currently no contracts associated with the operations under this license. Accordingly, upon grant of the renewal, it is requested that the Station Class be changed from “XC” to “XD” to permit operation under the license for internal research and development activity.
