**Re: Request for Expedited Processing and Grant of Assignment Application
Prior to Closing Date of February 11, 2008**

**Assignment of Experimental Authority Under Call Signs WC9XJE
and WC9XJM to Sensor and Antenna Systems, Lansdale, Inc.**

Dear Mr. Burtle:

On behalf of Sensor and Antenna Systems, Lansdale, Inc. ("SASL"), this letter is to request expedited processing of the above-referenced assignment application ("Application") wherein it is requested that the Commission grant its consent to the assignment of the following experimental authority to SASL:

<u>Previously Granted STA Call Sign</u>	<u>STA File No.</u>
WC9XJE	0693-EX-ST-2005
WC9XJM	0694-EX-ST-2005

This transaction is currently expected to close on or about February 11, 2008 and the purchase price was US\$240 million. Although the parties have attempted to prepare and file this application as soon as possible after collecting the necessary information, it is the parties' understanding that the current processing time for this type of application will generally not permit grant of the Application prior to the closing date, as is required under Commission rules and policies.

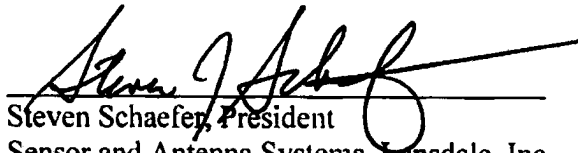

This assignment transaction, as described in the Application, is extremely straightforward and involves no complex issues or regulatory concerns. Given the simplicity of the Application and the lack of engineering review required, the parties good-faith effort to obtain timely Commission consent, and the fact no third-parties or licensees are impacted by this transaction, it is respectfully requested that the Commission process and approve this Application on an expedited basis so that the Application can be approved prior to the current anticipated closing date of February 11, 2008 in compliance with Commission rules and policies.

Federal Communications Commission
Office of Engineering and Technology

For all of the foregoing reasons, expedited approval of this assignment Application is requested.

Should the Commission have any questions, please contact the undersigned.

Respectfully submitted,

Steven Schaefer, President
Sensor and Antenna Systems, Lansdale, Inc.
