

NOTIFICATION

In accordance with Commission practice and policy, this is to confirm that the facilities previously authorized to be operated by BAE Systems Information and Electronic Systems Integration Inc. ("BAE Systems") under File No. 0029-EX-ST-2007 are operated in support of BAE Systems' internal research and development of its First InterComm™ system. First InterComm is a scalable "system of systems" by which public safety across disciplines and jurisdictions will be fully interoperable.

The underlying application for File No. 0029-EX-ST-2007 explained that the experiment was to be performed in support of this IR&D experiment, but because the grant issued by the Commission did not specifically identify this IR&D activity, this Notification is being submitted out of an abundance of caution in order to ensure that the Commission's records accurately reflect the activities which are supported by the grant.

Points of Contact

The First InterComm points of contact (POC) for any questions are identified below:

Contracts:

Mr. Donald Morgan
BAE Systems Electronics & Integrated Solutions
P.O Box 868, PTP01-2P21
