

Exhibit 1

In connection with this Modification Application for Station WG2XZT, the following changes to the license are being requested:

- In response to the prior suggestion of FAA's Anuj Sinha, the following frequency ranges have been modified as follows in order to assist in FAA review of the license:
 - Modify existing 1600-1660 MHz to: 1615-1641 MHz
 - Modify existing 1845-1950 MHz to: 1855-1950 MHz
 - Modify existing 4400-4940 MHz to: 4405-4940 MHz
- In order to reflect a frequency carve-out previously specified by the SBE coordinator, the following modification is requested:
 - Modify existing 500-605 MHz to: 500-589 MHz and 603-605 MHz
