From: Leann Nguyen
Date: January 15, 2009

Subject: FCC File# 0383-EX-PL-2008

Message:

The applied frequency 410 MHz is potential interference with the federal operations. NTIA is objection to grant this frequency; however, they suggest BAE can use another single channel (411 MHz <f< 415 MHz) instead of this frequency. Please submit a new frequency as soon as possible.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of January 15, 2009 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
