

EXHIBIT 2

With respect to Modulation Information, the following is provided:

Transmitter Type:

FM and Frequency Hopped (FH)

Method of Tuning:

Synthesizer

Maximum Modulation Frequency:

16 KHz digital data

Maximum Bit Rate:

20kps

Modulation Techniques and Coding:

The HOP rate is 113.11 HOPS/SEC, Dwell Time is 7.2 milliseconds. Any or all frequencies in the tuning range can be locked out.
