Message:

Your frequency request is too broad. Please prior coordinate with the FAA and Army to determine appropriate frequencies of operation. Please also be aware that NTIA has imposed specific criteria for transmissions on GPS frequencies. You will need to demonstrate that you meet their criteria if you wish to re-radiate on GPS frequencies. This testing may be better suited for handling through DoD channels rather than the FCC.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of December 01, 2005 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
