Message:

The frequency range that you requested 15.2-18.2 GHz covers various bands with different operations. Is it possible to narrow your operations at all? It would probably help to get approval if we could narrow your request between 15.7-17.3 GHz or 15.7-17.7 GHz which are allocated for government radiolocation operation.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of May 04, 2005 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
