Subject:

Request for Info - STA File # 0101-EX-ST-2003

---

Message:

How can I view and print a full copy of my original submission to ensure I included all the necessary data?

Is it preferable for me to visit the Boston FCC office and work with a Field Officer to complete my request?

re: My response to your e-mail, Reference Number 2515 --

SINGARS VHF F1D operation on the aircraft would be F1D (Hopping). I don't see anyplace on the original form to include this information. The frequencies of operation must be set according to the restrictions you provide.
