Request for Info - STA File # 0342-EX-ST-2002- Reply

---

Message:

Sorry for the confusion in my request. To respond to your questions:

1) We would like to be able to transmit the requested low-VHF frequencies/bandwidths/power levels from both Hudson locations and the Litchfield location. Not mentioning Litchfield in the text was an oversight.

2) All of our frequency requests should be fixed/base, given the definition provided in your email. Please change the frequencies which I designated as mobile to fixed/base. We may move our transmitter between tests (to the locations requested in the STA) but will never be moving and transmitting simultaneously.

Sorry again for the confusion. Thank You,

Eric Vogel
