CORRECTION TO BARON"s REPLY TO CORRESPONDENCE 2476 SUBMITTED ON
MARCH 4, 2002

This modification application only seeks to increase ERP for the 5400-5650 MHz frequency band, from 11.6 GW in the current license, to 16.4 GW.

Baron"s Reply submitted on March 4, 2003, mistakenly stated another frequency band. Please disregard the last paragraph in that Reply.
