Subject: Re: Fee Exemption for File Number 0506-EX-ST-2000? [Referenc

Thank you for informing me that the Agency I work for is exempt from the application fee. I do work for a local government air pollution agency in the San Francisco bay area. The Bay Area Air Quality Management District regulates stationary sources of air pollution in the 9 counties surrounding the San Francisco Bay.

In regards to my application, I was not able to complete it since my internet connection here at work crashed before I could finish. I was in the middle of correcting the Emissions information screen when the connection was severed. I plan to resubmit a complete application with the correct information. Is there anything I must do to cancel the previous application before I submit the new and correct one?

Thank you in advance for any information you can provide in regards to the above.

Regards,

James Cordova
Bay Area Air Quality Management District

I assume from the applicant name and your e-mail address that you are an entity of a local government. If this is so, you are exempt from the application fee that is normally required with an application of this type. Please confirm that the above is true, since no exhibit requesting a fee waiver was present with your application.
