AFTRCC concurs with the 2345 to 2360 MHz use as detailed in the message with attachments below and assigns ICN 0002-07 for November 8, 2007 through November 8, 2009. AFTRCC understands that aeronautical telemetry use of this band is on a secondary basis to the Wireless Communications Service (WCS). AFTRCC waives the coordination fee since primary allocation for the band has been granted to WCS.

AFTRCC has removed and destroyed the credit card information provided with the renewal form, since fee payment is not required.

Hi Mr Hart,

Attached please find completed Form 87-1, a copy of the current Beceem license, and my credit card payment authorization.

I think this is all you need, if I left anything out, please let me know.

best regards

Tom
