Dear Sir:

This is to advise you that Bellcore will be using its experimental license Call Sign KA2XAE in the New Jersey area for radio propagation tests as follows:

Call Sign: ~~KA2XAE~~ *KA2XAE*
Operating Frequency: 28000.0 and 39875.0 MHz
Continuous Wave, No Bandwidth, Unmodulated, Single Frequency, Analog
Transmitter Power 1 Watt
Transmitted power: +10 dBW (EIRP)
Transmitting antenna type: Omni directional Directional and/or omni-directional
Test Duration: September 18, 1995 through December 23, 1995
Approximately 8:00 AM to 8:00 PM daily

Test Location:

Address: 331 Newman Springs Road
City & State: Red Bank, NJ
Latitude: 40-20-05
Longitude 74-05-43
Height 55'

During this experiment the equipment will be under the supervision of Mr. Scott Seidel from Bellcore, he may be reached on 908-758-2928.

If additional information is required, please contact me.

Sincerely,

Copy to: H. Franklin Wright,
