Field	Value
Name	Paul Anderson
Title	President and CTO
Organization	Blackwing Space, Inc.
Phone	586-909-9422
Email	paul@blackwingspace.com
Address	8382 Greenvale Dr, Nashville, TN 37221-4017

Mr. Anderson has full authority to direct ground station operators to transmit shutdown commands to the spacecraft.

Secondary Stop Buzzer Contact

Field	Value
Name	Oliver Muoto
Title	COO
Organization	Blackwing Space, Inc.
Phone	650-787-5567
Email	oliver@blackwingspace.com
Address	155 Pennystone Circle, Franklin, TN 37067

Mr. Muoto has full authority to direct ground station operators to transmit shutdown commands to the spacecraft.

Ground Station Operator

Ground station operations are provided by RBC Signals. Blackwing can initiate the shutdown sequence remotely through its mission operations interface, which routes the stop-transmission command through the RBC Signals command path. The separately licensed RBC earth stations provide the command delivery path, while Blackwing retains stop-buzzer authority over spacecraft emissions.
