Subject: Request for Info - File # 0810-EX-PL-2015

Message:

We had loaded the majority of the requested information on 12/30/15. When looking at the exhibits associated with File number 0810-EX-PL-2015 there are several attachments including antenna patterns, spacecap file, cost recovery letter, etc. If you still do not see these attachments, please contact me.

There are three items that we are still missing and are in work:

1. IARU coordination letter
2. ODAR
3. NOAA license

We will be uploading these files in the near future as they become available.

Thank you,
John Carvo
