Message:

Mr. Kennedy,

The emission designator in the application 2M10G7D is not correct. The correct emission will depend if the engineers will use the 2.1 MHz filter before re-radiating, then it will be 2M10G1D. If they decide not to use the filter, then it will be 24M0G1D. I'm waiting myself to see which one they choose.

Chuck Zappala
