

January 9, 2017

Attachment to: **0018-EX-CM-2017**

Purpose of Modification:

Over the next year, some of the equipment used on the Department of Homeland Security's Fast Response Cutter project will become obsolete. The following table is provided to support Bollinger Shipyard's recent application to modify its license to include the new equipment. The older equipment will be phased out over the next few months as shelf stock is depleted, and the newer equipment installed.

Old Equipment	New Equipment
Raytheon PSC-5D	Harris PRC-117G
Thrane & Thrane SC4000	General Dynamics 9505A
KVH TracPhone V7	KVH TracPhone V7-IP
