Washington, DC 20554
Attn: Mr. Doug Young

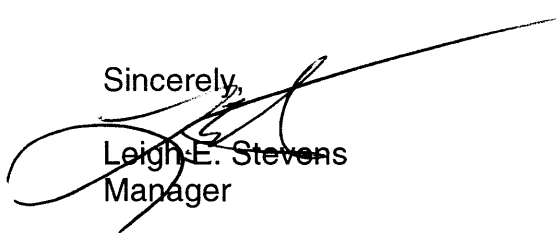

Dear Mr. Young:

As discussed on October 28, 1997 please find attached corrections to our request for an experimental license. The file number 5885-EX-PL-97.

I am eliminating the request for 2.01 GHZ to 2.025 GHZ. My search with the local area coordinator of the Society of Broadcast Engineers indicated that he did not think he could support our use of the frequency. They use it for ENG.

Please modify paragraph 4 of our FCC form 442 as indicated on the attached table. If you require a mailed copy, or need the letter sent to another office, please let me know. Larry Kirkpatrick or I are available at your request.

Sincerely,

Leigh E. Stevens
Manager
