To Whom It May Concern:

This is to certify that:

Bosch Rexroth is working side by side with Qualcomm which deploys and/or manages radio frequency equipment.

The RF experimentation will be conducted by following a strict Test Plan defined and approved by Bosch Rexroth in a controlled environment.

Bosch Rexroth will have a Project Manager in place to specifically follow the Test Plan, track results, and publish test results.

Bosch Rexroth will work closely with Qualcomm which has a number of RF engineers on permanent staff.

For the above reasons, I believe Bosch Rexroth meets the Eligibility criteria for a Special Temporary Authority experimental license as set forth in the Commission Rules.

Sincerely,

Abdulilah Alzayyat
Sr. Sales Engineer
Bosch Rexroth Corp.
