Special Conditions:

- (1) In lieu of frequency tolerance, the occupied bandwidth of the emission shall not extend beyond the band limits set forth above.
- (2) Licensee should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee of this authorization will be subject to immediate shut down.
- (3) Broad Comm must be made aware that the 2200 – 2290 MHz band is allocated exclusively for federal satellite and fixed line-of-sight operations. Any non-federal use of this band is approved on a case-by-case basis. Broad Comm should have no expectation of automatic approval with future submissions
