

Description of Requested Use

The purpose of this STA request is to provide video coverage of the Tour of California bike race and related activities. The race and activities will take place between February 16 and February 26, 2007. The course will begin at San Francisco, CA and end at Long Beach, CA. The video coverage will be from various points along the race course. AFTRCC coordination has been requested for the use of frequencies 2367 and 2384 MHz for use on the ground within a 16 km radius of points along the course. In addition, AFTRCC coordination has also been requested for the use of frequencies 1470, 1490, 1510 and 1520 MHz for airborne use (maximum 183 m (600 feet) AGL) along the race course.

The starting point, intermediate points and end point of the course are as follows:
