

Explanation for Late Filing of BOSTON MARATHON STA Application

The filing of this application was delayed due to a delay in obtaining the AFTRCC coordination. The requested start date is April 10, 2010 to allow for setup and testing. We realize that there may not be sufficient to process and grant the application by that date and we are prepared to delay setup and testing until the application can be processed. We request that you please process the application as soon as possible and we apologize for the late filing.
