This e-mail is your AFTRCC coordination.

The coordination includes this header information, DoD Area Frequency Coordinator comments, and AFTRCC comments. These three messages must not be separated.

This recommendation is advisory only and not binding on the FCC. Applicants are advised that this coordination does not constitute a judgement that a recommended frequency is best suited to the applicant's purpose nor that the frequency is exclusive to the applicant. Flight Test frequencies are shared and may be subject to scheduling with other agencies.

In return for AFTRCC's processing of the applicant's coordination request, the applicant agrees to release and hold harmless AFTRCC, its officers, directors, members, agents and representatives from any claims, losses or expenses which may arise as a result of the applicant's use of these frequencies.

This coordination is not an authorization to operate. The FCC must grant the applicant authorization to transmit. A copy of this coordination must accompany your application to the FCC.

Gina,

Eglin will be operating from M2360 to M2394 from 0600-1700 hrs (local) and may impact any user operating in this portion of the band. It is not believed that any of the signals emitting from the location noted below will interfere with any Eglin operations. The user must acknowledge that interference to his system is acceptable, and must cease operations if it's determined to be a possible source of interference.

No transmitters/antennas to be operated above FL009 (900 ft).

Thanks,
Rene Maldonado
