

Justification for Filing Date

This Special Temporary Authorization (STA) Application was originally filed on July 13, 2007 for the event that is scheduled for September, 2007

These are the issues that prohibited an earlier filing:

1. It wasn't clear what equipment would be shipped.
2. The specifications were not clear to until July 13th.
3. We have been working to compress the modulation and it took until just 2 weeks ago before we were certain that we would be able to compress and thereby change the modulation.
