Message:

Please submit the justification for using number of equipment.

This is a media event of major proportions where Broad Comm is providing support for a large number of media organizations. The need for a large number of frequencies and transmitters was discussed in the attachment to the application as noted below.

The extensive list of requested frequencies is to allow Broad Comm to support a significant number of networks and other media organizations for this very large event.

For some of the frequencies a large number of transmitters have been requested. In view of the magnitude of the event it is likely that a large number of portable transmitters may be required and the number requested represents what we believe to be the maximum number that may be needed.
