

Further Explanation of the Purpose of this Application

This application is being filed to amend the coordinates given in a previously granted application (File number: 0391-EX-ST-2008, Call Sign: WD9XLJ). Due to a typographical error the coordinates for the latitude degrees were inadvertently given as 46 degrees when it should have been 44 degrees. The physical location description given in the application was correct (Xcel Energy Center – Saint Paul, MN). Please note that initial setup and testing for this event is already underway; therefore, prompt correction of this error is very important.
