

**Justification for Expedited Processing of UHF STA Application
Television Coverage of 2008 PGA Tour Championship**

As is well known there are continuing concerns related to terrorist attacks and the need to provide security at high profile activities such as this event. In view of those concerns, law enforcement officials need all the assistance that can be provided to aid them in identifying potential threats. Therefore, if necessary the frequencies and equipment covered in this STA request will be made available to security personnel to help in on the scene identification of potential security problems or to use in the case of an actual emergency. In view of that expedited processing of this application is hereby requested.
