Broadcast Sports Inc.
Special Temporary Authority
File No. 0346-EX-ST-2008
STA Confirmation No. EL998451

Broadcast Sports ("BSI" or "applicant") has commissioned a study of television broadcast channel occupancy within the frequency ranges 494-500 MHz (Ch 18) and found that there was only one full power station within 100 miles of the golf course in Akron, OH (41-00-10N/81-30-42W). *See below.* Likewise a study was performed to identify all TV stations operating within 100 miles in the course. *See attached.*

Due to the low power operation of BSI at this each event no interference is anticipated. Should any interference be reported however, applicant will cease use of said bands immediately until remedied.

Related Nonbroadcast Facilities: ULS Search

Using a broadcast station's facility ID number, you may search in the WTB's ULS database for nonbroadcast station records that are related to radio and TV broadcast stations, such as microwave facilities. Use the [ULS Radio Services List](#) to determine the nonbroadcast station's service. Not every AM, FM, or TV broadcast station will have related nonbroadcast operations.
