

Frequency Coordination Exhibit
Broadcast Sports, Inc.
Special Temporary Authority Application
File No. 0602-EX-ST-2007
STA Confirmation No. EL943401

The applicant, Broadcast Sports, Inc., has been advised by the local SBE recognized frequency coordinator, the Southern California Frequency Coordinator Committee that there is a complete terrain shielding between the closest television station, K16FI, on channel 16 and the location of the requested STA of the applicant. TV Translator Station K16FI is approximately 24 miles away. The next closest other facility, also a TV Translator, is 83 mile away. In the event any interference is reported to over the air television viewers, all operation on these frequencies will cease until all interference is remedied.
