

Frequency Coordination Exhibit
Broadcast Sports, Inc.
Special Temporary Authority
File No. 0614-EX-ST-2007
Confirmation No. EL590711
Long Beach, CA

Broadcast Sports, Inc., (“BSI”) has performed a search of the FCC’s Universal Licensing System (“ULS”) of Educational Broadband Service (“EBS”) licenses in order obtain approval for the proposed short term operation at 2500-2650 MHz. The ULS search results indicated there are no EBS licensees less than 40 kilometers (24.8 miles) from the race site located at (insert the venue, city and state) with the closest EBS licensees at 50 kilometers (31 miles). See attached ULS search results.

The EBS frequencies will be transmitted directly downward to a helicopter at an altitude of 3000 – 4000 ft AGL center over the race course (a radius of approximately three miles) for a four-day period (April 17 – April 20, 2008).

For the reasons stated herein, no consents were necessary or obtained by BSI for the use of EBS channels in the 2500 -2690 MHz band. However, should any interference be reported BSI will coordinate with the reporting entity(s) to immediately remedy the issue.
