Gentlemen:

On March 29, 2001, our office submitted an STA request for the 2nd Quarter of this year on behalf of our client, BST, Inc. We hereby amend that request to include one additional location and an additional frequency for the Las Vegas NAB event that was included in the original submission.

The additional location is San Diego, California on April 17 to April 20, 2001 for a System Test. The Latitude/Longitude is N 32 deg. 43.66', W 117 deg. 11.90'. The frequency and power level is as follows:
