Mr. Young,

Per your request, I am emailing to inform you that there are no ITFS licensees operating on ITFS Channel Nos. B2, B4, D2 or D4 within a fifty mile radius of the center coordinates of the 2002 PGA Championship in Chaska, Minnesota. Thus no request has to be made to ITFS licensees for use of the frequencies requested in BST's July 11, 2002 STA Request. A search was done on the FCC's GenMen database for all ITFS frequencies within 50 miles of the center coordinates of the golf course. I am attaching a copy of the results of the search.

If you have any questions, please contact me.

Sincerely,
Niels Quist
