Subject: FCC File #: 0257-EX-PL-2001

Message:

Dear Mr. Peter Connolly:

In the submitted exhibit, it is mentioned that experimentation will be performed in the PCS and cellular bands. Those bands more precisely are 824-849 MHz, 869-894 MHz for cellular and 1850 - 1910 MHz, 1930 - 1990 MHz for PCS (1910 - 1930 MHz require coordination with UTAM and require that operations be performed in accordance with Part 15 of 47 CFR.)

Are the originally requested frequency bands still the ones being sought considering the information given above?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of November 20, 2001 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
