

EXHIBIT 1

<u>Frequency (MHz)</u>	<u>Maximum Output Power (Watts)</u>
1850-2200	20
2450-2690	100
3700-4200	20
5925-7125	20
10550-10680	10
10700-13250	10
17700-19700	10
21200-23600	10
27500-29500	10
31000-31300	0.05
38600-40000	10

The power and emission of all transmitters will comply with the technical requirements of the appropriate section of the FCC Rules for each service and frequency band.

EXHIBIT 2

Cable AML is a manufacturer of microwave communications equipment. This application covers the testing and development of equipment pursuant to Section 5.202 (i), the demonstration of equipment to customers pursuant to Section 5.202 (f), and propagation testing pursuant to Section 5.202 (e). The power, emission and other specifications of all transmitters will comply with the technical requirements of the appropriate section of the FCC Rules for each service and frequency band.
