Subject: 0514-EX-CN-2019

Message:

The coordinates for the radar (38-42-11, 78-07-58.8) is the actual location of your operation and you need to enter them on your application instead of your office's coordinates. Unless, "45150 Business Ct., Sterling, VA 20191" is where you intend to transmit. If you are using commercial UASs, then the assumption is they are authorized by the FAA. That being the case, what is the height of your drones AGL during flight and transmission?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of August 07, 2019 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
