Subject: Area of operation

Message:

We have received objections to your application from our Wireless Telecommunications Bureau (WTB). WTB is concerned about the feasibility of coordinating with existing licensees for a nationwide experimental license. We will not be able to grant your license unless you can narrow your area of operation to specific locations. Please amend your application online to identify specific cities or areas of operation and specify any efforts you have made or intend to make to avoid interference with the existing licensees in the bands.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of January 11, 2002 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
