

**California Internet, L.P. dba GeoLinks**  
**Request to Withdraw Application for Special Temporary Authority**

On February 24, 2020 California Internet, L.P. dba GeoLinks (“GeoLinks”) submitted an application for Special Temporary Authorization (“STA”) to conduct a product development trial, as defined in Section 5.5, using spectrum in the 10-12 GHz band from specified locations in and around Simi Valley, CA. The application has been assigned FCC File Number 0266-EX-ST-2020 and remains pending. On March 10, 2020 the FCC requested additional information from GeoLinks. In the intervening weeks the world has been hit by the COVID-19 pandemic. The travel and business disruptions resulting from the pandemic have rendered it impossible to conduct the testing as scheduled. Geolinks therefore withdraws its request for STA.
