To John Bellardo KK6HIT

Subject: **frequency coordination for AMDROHPSat**

Dear John,

In response to your coordination request IARU has assigned the following up- and downlink frequency for AMDROHPSat: 436.860 MHz with emission designator 20K0F1D, EIRP 30 dBm;

Planned launch date December 2026.

Licensing administration: USA.

Telecommand station: N6CP.

Height and Orbit: Low Earth Orbit

IARU has coordinated frequencies in bands allocated to the amateur satellite service. All frequencies in the amateur satellite service are shared frequencies.

Please inform me about the final launch date and the API/A number as soon as that information becomes available. IARU encourages you to notify your satellite within one month after successful deployment.
