Message:

2) In the spacecap, the class of station should be ES for all beams not EH (excluding the 2467 MHz beam).

 3) Also, the 2483.765- 2499.775 MHz in the spacecap was not included in the NTIA data form.

4) Provide the Globalstar Companion License File:

Answer: Per the uploaded reference, the Globalstar Companion file for this, is 0861-EX-CN-2020.
